

# AirTouch N30i

Nasal mask

Freedom

The ResMed AirTouch™ N30i features a top-of-head tube design and the new ComfiSoft™ silicone-coated fabric cushion combined with a frame that's fully wrapped in soft, breathable, moisture-wicking fabric.

## Systems and Components

Elbow

Mask frame

Cushion

Headgear

## How to fit the AirTouch N30i

Pull the frame and headgear over the head so the elbow sits on top and the headgear is positioned behind the head. Place the cushion under the nose.

Tighten or loosen the headgear until the cushion fits comfortably. Feed longer hair through the back of the frame and over the top of the headgear, if needed.

Squeeze the side buttons on the elbow and detach it from the frame. Connect the air tubing from the device to the elbow, then reattach the elbow to the frame.
