**NASAL PUFF PART #2**

**DIFFUSERS PART # 7**

**MOUTHPIECE PART # 1**

**HOSE CLAMPS PART # 3**

**CURVED BRACKET PART # 4**

**SCREW & NUTS PART # 8**

**CORRUGATED TUBES PART # 5**

**"Y" COUPLING PART # 6**

**OPTIONAL SWIVEL CONNECTOR PART # 0**

#1 Heat Formed Mouthpiece - Holds the CPAP PRO firmly in place. Replace on average every 3 months.

#2 Nasal Puff Assembly - Special nose-fitting seals attached to the top of the CPAP PRO. Replace on average every 3 months.

#3 Adjustable Hose Clamps - Clamps hold the plastic tubes in place. Replace on average every 6 months.

#4 Curved Bracket - Main plate that holds the CPAP PRO assembly. Replace as needed.

#5 Corrugated Tubes - Tubes that connect the Nasal puff assembly to the Y coupling. Replace on average every 3 months.

#6 Y Coupling - Connects the corrugated tubes together. Replace as needed.

#7 Diffusers - Replace on average every two weeks

#8 Screws & Nuts - Hold the mouthpiece to the curved bracket. Replace on average every 6 months.

#0 Optional Swivel Connector - Helps prevent 'kink' in hoses. Replace as needed.
