© Fisher & Paykel Healthcare Limited 2004

**The FlexiFit™ 432 Full Face Mask** offers an improved seal and more comfortable fit with the inclusion of a soft Foam Cushion that interacts with the Silicone Seal. This alternative to nasal or oral delivery comes fully assembled and ready for use.

## UNIQUE MASK FEATURES FOR GREATER FREEDOM, COMFORT AND COMPLIANCE

### FlexiFit™ Technology Auto-contouring fit

With Foam Cushion FlexiFit™ Technology automatically adjusts to a wide range of nasal and facial contours with simple one-step ease of fitting and no complicated adjustments. The Foam Cushion improves the sealing technology and comfort.

### Glider™ Strap Anti-leak system

The sliding Glider™ Strap provides freedom of movement while maintaining a seal. Mask force remains equal when the head rotates from side to side, minimizing the occurrence of leaks.

### Under-Chin Design Extra stability

An Under-Chin fit provides stability by providing a constant point of reference and maintains the seal even with movement of the jaw during the night.

### Efficient Bias Diffuser Quiet usage

**Maintenance Free**  
This advanced air diffuser system prevents air from blowing onto the sleeping partner and decreases noise that could potentially disrupt sleep.

### Premium Frosted Silicone Seal Optimizing seal technology

This seal technology has a soft, smooth feel to slide onto the face, and its frosted texture optimizes the mask seal.

### Crown Strap Extra stability

Complements the Under-Chin Design to maximize stability and eliminate the need for a chin strap.

### Easy-Release Strap One-step removal

Simply pull the Easy-Release Cord for one-step removal of headgear. No ongoing headgear adjustments required.
