SLEEP WELL TONIGHT

Wisp

Performance has a new style

Developing solutions that meet the needs of a rapidly changing industry calls for fresh thinking and collaboration. At Philips Respironics we traveled around the world asking clinicians, homecare providers, and patients how we could improve their experience.

Clinicians wanted us to resolve the tradeoff between nasal and pillows masks, homecare providers wanted a solution that could reduce operational complexity by getting more patients served from one package, and patients wanted a better overall mask experience that improved their lifestyle.

When you put it all together, the answer is Wisp.

- Compact design comfortably fits more than **98%** of patients

- Patients said they had a **better quality of sleep** with Wisp over the leading pillows and nasal masks

Allies
in Better Sleep
and Breathing

At Philips Respironics we're listening carefully to you and working toward solutions that contribute to healthy patients and healthy businesses.

- Open field of vision for a feeling of **greater independence** — patients can read and even wear their glasses

- The minimized design and headgear clips make it easier for patients to use and clean

Wisp delivers

During our CPAP patient preference and RT/ST ease of use studies, Wisp was preferred over the leading nasal and nasal pillows masks in these categories:

| | |
|----------------------------------|-------------------------|
| Patient preference study results | Comfort |
| | Ease of use |
| | Seal |
| | Quality of sleep |
| | Less nostril irritation |

| | |
|--------------------------------|--------------------------------|
| RT/ST preference study results | Fit & seal |
| | Ease of assembly & disassembly |
| | Ease of patient setup |

Pick your Wisp

Why patients preferred each version from an appeal perspective

Clear frame preference

- Silicone is less visible and doesn't draw attention to the face
- Translucent, looks smaller

Fabric frame preference

- Feels softer and more pliable
- Gets you closer to the feeling of your pillow
- Easier to sleep on your side
